

**What does a Room Parent do?**

As a Room Parent, you would be working with either the teachers or Board Members to coordinate activities in your child's room for things such as Room Breakfasts, teachers' gifts, and Teacher Appreciation Week.

**What does a Parents Association Board Member do?**

The mission of the Parents Association and its Board of Directors is:

- a. To foster and encourage parent participation in the Child and Family Center by making parents aware of opportunities for involvement in the Center.
- b. To promote community-building and communication among parents, teachers, directors, and University administration, through regular Parents Association Board meetings, discussions with administrators, distribution of board meeting minutes, and regular reports in newsletters.
- c. To raise funds, beyond those generously contributed by the University, to enrich and enhance the educational experiences of the children.

As a Board Member, you would attend monthly Board Meetings and participate in activities throughout the year that support this mission. Such activities include participating in managing the Library and the T-Shirt Shop Sales and coordinating other community-building or fundraising activities.
